IDOL

MEN'S STEP BY STEP

CUT

STEP BY STEP

Section the inner and outer areas. In the outer area, use the tip of the clippers to define the perimeter 2 cm from the hairline. Use the clippers with the taper lever in the closed position.

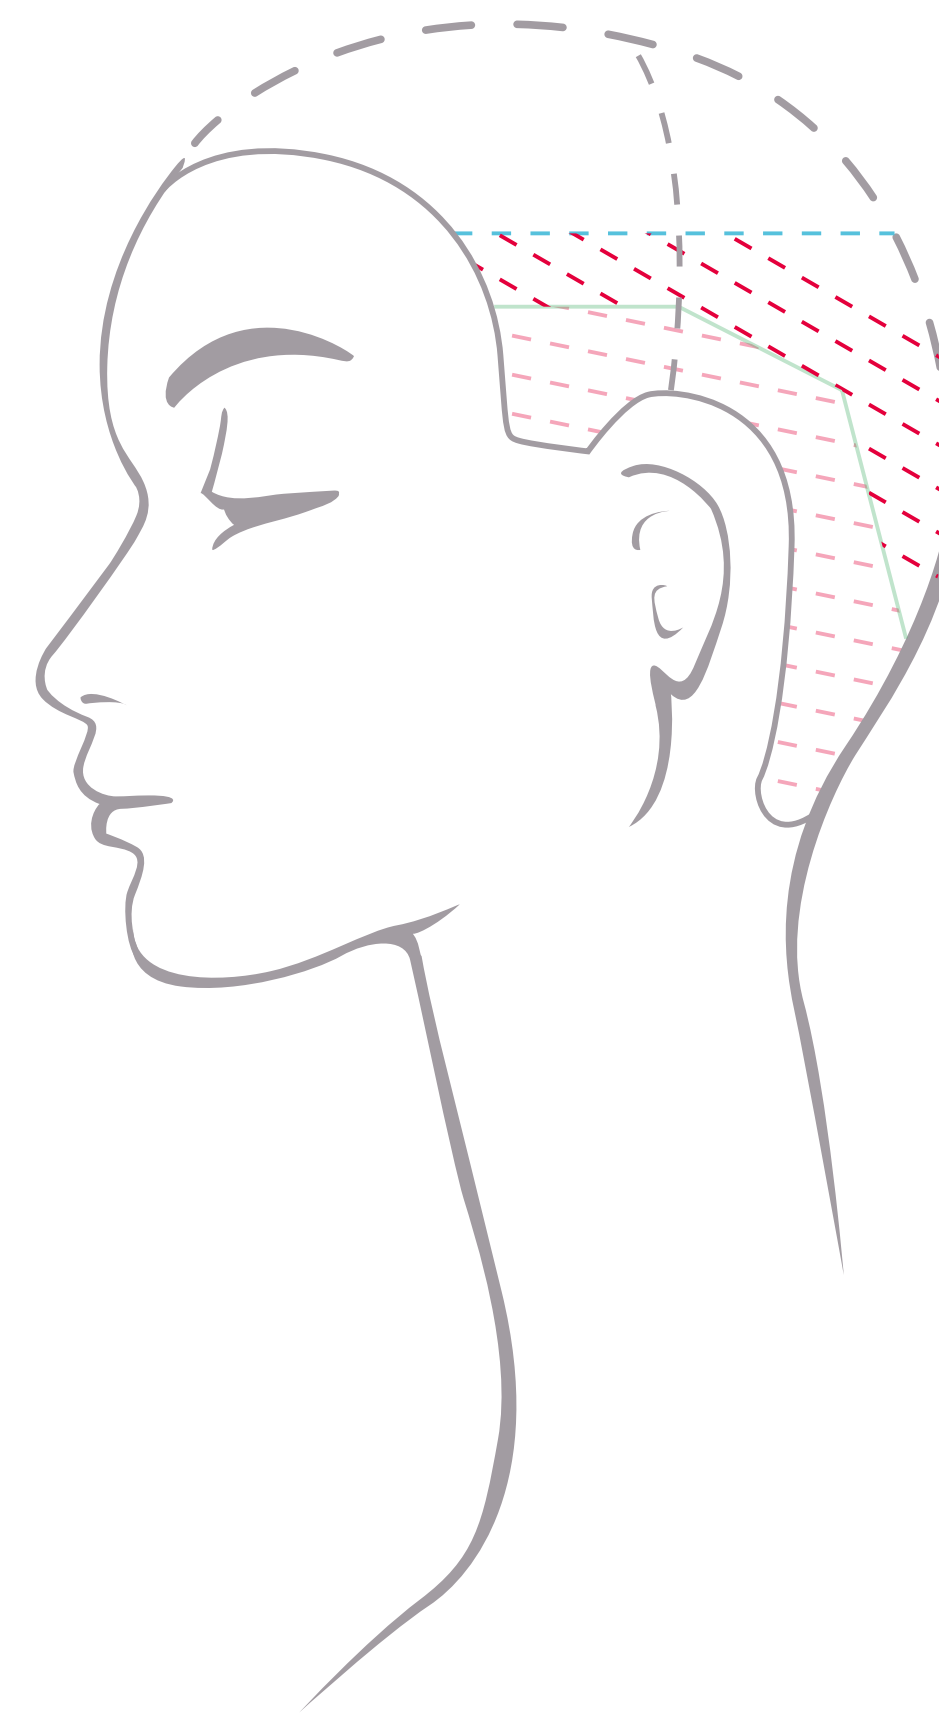

CUT

STEP BY STEP

Next gradually taper the outer area.

Use the thumb lever to increase the taper level.

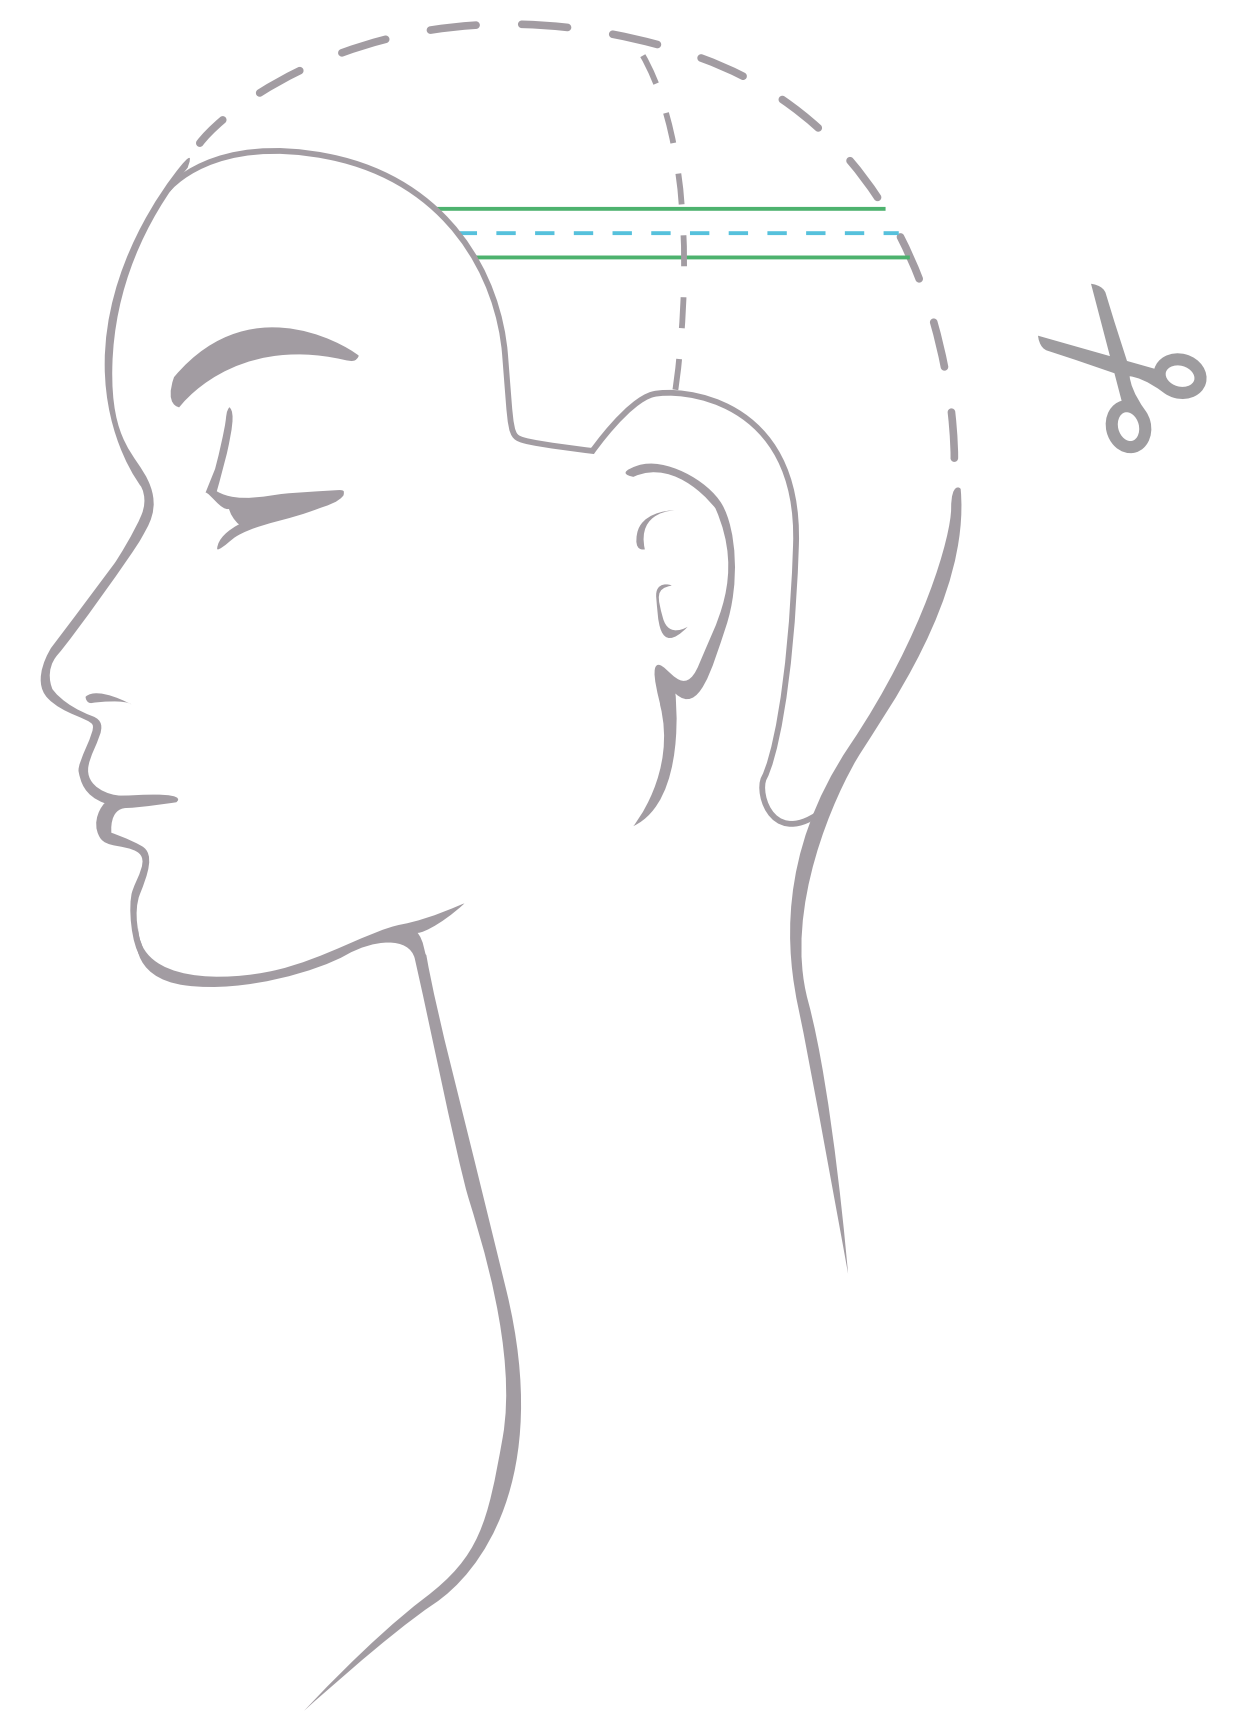

NB: concentrate on the line previously created to eliminate the parting effect.

CUT

STEP BY STEP

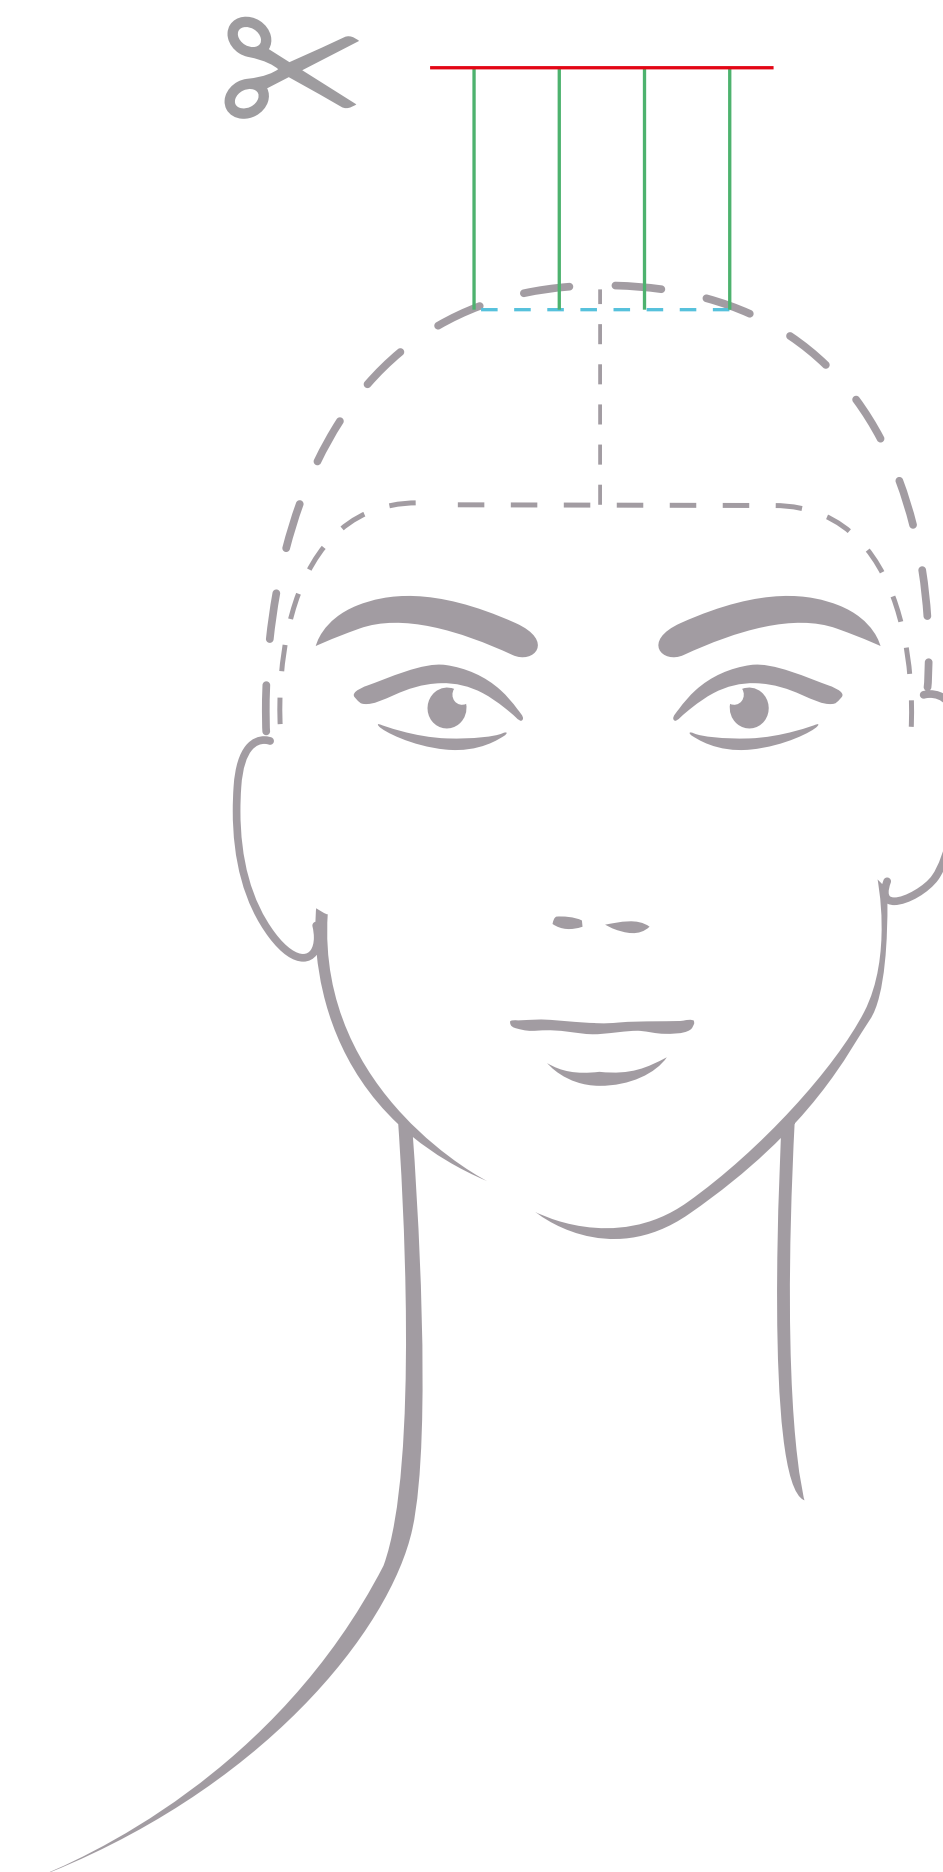

Continue tapering the crown area, using the shear over comb technique and serrated scissors.

CUT

STEP BY STEP

In the inner area, create horizontal sections, perpendicular distribution, horizontal cutting line, **CLUB CUTTING** technique. Mobile guide line
Continue to 3 cm from the front hairline, using the same technique.

CUT

STEP BY STEP

Finish up in the fringe area, taking the last cut strand as the reference point. Shifted distribution, horizontal cutting line, **CLUB CUTTING** technique, fixed guide line. Texturize using the sweet to tear technique.
