CREATION OF THE DIVISIONS

CUTTING

Create a division from ear to ear,
excluding the sideburns.

Exclude the nape area and create
two sections below the crown.

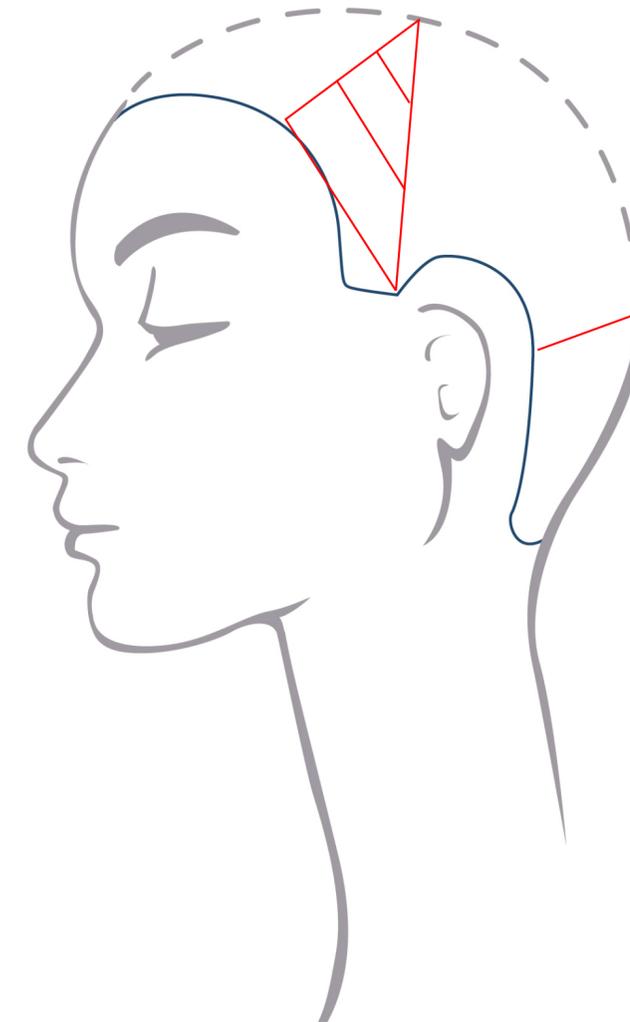

STEP 1

CUTTING

Start from the sides with diagonal separations, project the section at a 45° angle, and cut using club cutting.

Repeat on the opposite side.

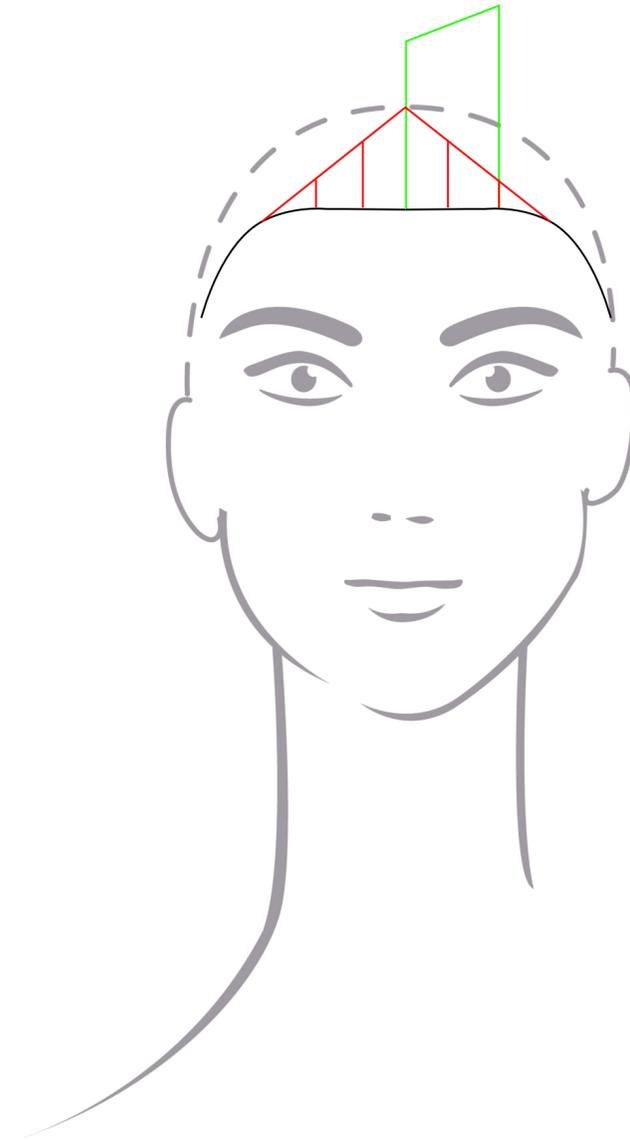

STEP 2

CUTTING

Continue with the fringe area using vertical sections.

Use the last section from the side as a reference and cut in transparency.

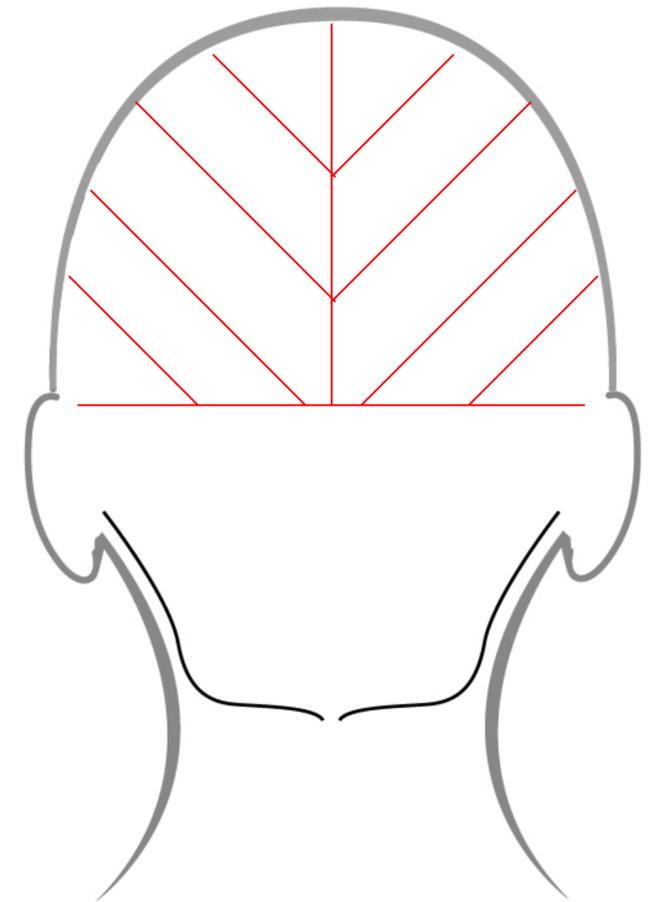

STEP 3

CUTTING

In the back area, continue with diagonal sections, following the roundness of the head.

Refine the perimeter and texturize.

FINISH
STYLING 1

Spray **Titan Extreme Wax Spray**
over the hair, defining the strands.

FINISH STYLING 2

Dispense 2 to 4 walnut-sized amounts of **Design Volumizing Mousse with medium/strong hold** and distribute over washed and towel-dried hair. Proceed with drying.
